Technical Skills

Programming: Java, Python, SQL, JavaScript, HTML5, CSS

Frameworks: Spring Boot, Hibernate, Angular, React, Struts2

Cloud: AWS (EC2, Lambda, S3, RDS), CloudFormation

Containerization: Docker, Kubernetes

Monitoring: Grafana, Prometheus

Databases: MySQL, MongoDB, Oracle

Tools: Jenkins, GitLab, Maven, JIRA, Ansible

Technologies: REST APIs, Microservices, JPA, Spring MVC, JDBC, Servlets, JSP, OAuth2/OIDC, Spring Session, kafka

Practices: CI/CD, Agile, Unit Testing (JUnit, Mockito), Test-Driven Development (TDD)

Experience

Algoworks

July 2025 – Present

Software Development Engineer

Noida

- Developed and maintained scalable backend services using **Java 21**, **Spring Boot**, **Spring MVC**, and **Hibernate/JPA**, building RESTful APIs for billing processing systems.
- Implemented **OAuth2/OIDC**-based authentication and JWT authorization using Spring Security and **Keycloak**, securing financial workflows with role-based access control (**RBAC**).
- Developed responsive frontend modules using **React.js**, **Hooks**, Context API, and Material UI, improving administrative efficiency by **40%** through optimized state management and API integration.
- Developed TCS-UI (React/MUI), reducing administrative processing time by **40%**.
- Migrated legacy business logic to **Groovy 5.0.2 compiler**, reducing runtime failures by **70%** and improving template execution efficiency.
- Containerized and deployed Pentaho using **Docker**, **Helm**, and **Kubernetes**, reducing deployment time to **<10 minutes**.

Comviva

Feb 2023 – July 2025

Software Development Engineer

Gurgaon

- Engineered migration from **JSP-based** monolithic app to **React.js (Vite + Material UI)**, achieving a **30% faster load time** and improved maintainability.
- Developed and deployed a **CSRF token-based security** mechanism, reducing unauthorized access incidents by **25%**.
- Integrated **Keycloak** for SSO, RBAC, and MFA, enabling secure access for **100K+ users**.
- Optimized database pooling with Hibernate DBCP and **C3P0**, improving connection stability and reducing latency by **10%**.
- Refactored legacy Brand Management system into **Spring Boot microservices**, improving scalability and reducing processing time by **35%**.
- Built an **OTA campaign scheduling channel** for 50+ concurrent customer promotions, enabling better personalization and engagement.
- Developed a **Top Ten Songs** feature in ISMS, boosting subscriptions by **15%**.

Pepcoding

Jun 2022 – Nov 2022

Software Developer

Noida

- Developed responsive UIs for the **NADOS platform** using React.js + Material-UI, reducing load time by **35%**.
- Automated CMS data migration process, cutting transfer time from **8–9 hours** to just **26–28 minutes**.
- Processed **10,000+ CSV files** into MySQL using optimized Java batch jobs, saving **3 hours daily**.

Achievements

Winner, **Algoworks Hackathon 2023** — built an automated UI prototyping tool that reduced UI design **time** and frontend development **effort**.

Solved **500+ LeetCode problems**, focusing on Data Structure and algorithmic optimization.

Education

Guru Gobind Singh Indraprastha University

Sep 2019 – Jul 2023

Bachelor of Technology in Computer Science

9.2 CGPA
